Mr. Day was present at the meeting and stated that he had been before the Planning Board in 1995 for a subdivision of this property, but did not seek final subdivision approval. He would like to subdivide to create two (2) lots, one lot will have 150 feet frontage and approximately 615 feet in depth and the other lot will be 200 feet frontage and approximately 615 feet in depth. The back lot line for both lots will be the back property line. There are no drainage issues with these proposed lots. 	One Lot Minor Subdivision

Mr. Strangio was present at the meeting and stated that he would like to create a lot that will have 160 feet frontage and approximately 1200 feet in depth. Mr. Amacher stated that at some point the Town may need to clean out the ditch on this property to ensure proper drainage. When an existing ditch is cleaned they generally use about 20 feet of property and leave what was cleaned from the ditch for the property owner's use. Mr. Amacher stated that ensuring proper drainage of property is a benefit to everyone. Mr. Strangio stated that the remaining land will continue to be farmed by the farmer who currently farms the land. Mr. Strangio would like to build on the proposed lot in the future. A discussion took place regarding distance a residence may be built on a lot; according to Mr. McCann the maximum distance is 125 feet from the front property line. Gas and water are available, but there is no gas or sewer on Baer Road.
