### **CONCERNS OF CITIZENS**

**Roger Schreader Jr.  
4400 Green Rd., Lockport**

Mr. Schreader asked the Town Board if there was any truth to the reports that sewage/sludge was dispersed on a farmer's field on Rt. 425 near Ridge Rd. the prior week. Supervisor Ellis specified that "Equate" was spread on a field on Rt. 425. Equate is not considered sewage/sludge. It may be a portion, no more than 50%, of the whole, and is considered by the DEC as a Class A biosolid, which is safer than a Class B biosolid. All authorization and permits are issued by the DEC for this process. Mr. Schreader asked what the Town Board's stance is on this practice as he feels this issue affects the Town as a whole. Supervisor Ellis indicated they have no problem with it. The Town Board members have done extensive investigation into it from various standpoints. The Board feels it is safe as long as it is properly applied in accordance with DEC guidelines. The Supervisor also indicated that there is considerable misinformation out to the public regarding this issue.

A brief discussion ensued.

**Ann Marie Reeb  
6630 Sheetram Rd., Lockport**

Mrs. Reeb, a concerned Pendleton resident, addressed the Town Board with her concerns regarding the spreading of sludge and how it affects children. She noted the hours of research she has completed on this matter and is concerned with the run off of the "Equate" into the water supply and the accompanying smell. Mrs. Reeb presented the Town Board with a document regarding a proposed federal ban on microbeads and requested the Town Board to take more time to research how the spreading of "Equate" affects Cambria residents and their children.

**ADJOURNMENT**

The meeting was adjourned by motion made by Councilman Hurtgam and seconded by Councilman Roberts.  
Time: 8:30 pm

Respectfully submitted,

Tamara J. Cooper
