

WE WANT YOU

COME JOIN OUR TEAM ...

December 2022

Dear Future Cambria Volunteer Firefighter,

WE NEED YOUR HELP!!

The Cambria Volunteer Fire Company takes our responsibility very seriously. Our community is protected by dedicated VOLUNTEER 1st Responders committed to serving in emergencies. Saving lives and protecting property is not an easy task, with responding to over **400 fire and EMS** calls a year. We do it willingly and often without recognition, but it is our duty to keep our community safe.

As our community grows, so do our emergency calls for help. Today we respond to far more EMS calls than fires and vehicle accidents. We respond when someone is having a heart attack or any other medical emergency. We also answer calls for anything from hazardous materials incidents to sports injuries, to industrial accidents. *We need VOLUNTEERS to help us help our community.*

There are many benefits to include.

- Satisfaction from helping your community
- Free nationally recognized training and certifications
- Skills that could lead to future employment
- Equipment provided for the job
- Activity-based retirement plan
- College tuition funding
- Income tax credits
- Restricted Members Program for 16–18-year-old members

For those of you who are not interested in becoming a Firefighter or Emergency Medical Technician we also need volunteers or social members to help support us whether it be helping with our fundraising events or preparing food for our members who are out on calls for multiple hours at a time.

Cambria Volunteer Fire Company will become a special type of family and create life-long relationships.

Anyone who is interested in becoming a volunteer please see our website at <https://www.cambriavolunteerfire.com> for the application or contact Roger Schreader at: (Phone) 716-481-3962 or (email) rschreader@gmail.com

Sincerely,
Membership Committee
Cambria Volunteer Fire Company

YOUR NEIGHBORS NEED YOUR HELP!
