

TOWN OF CAMBRIA TOWN BOARD
September 10, 2020

The regular meeting of the Town of Cambria Town Board was held pursuant to Governor Cuomo's Executive Order 202.1, temporarily modifying the Open Meetings Law due to the COVID-19 pandemic and in the interest of public safety. Town Board members met via teleconference at 7:00 pm on the 10th day of September 2020.

Prior to the start of the meeting, Supervisor Ellis acknowledged that tomorrow is the 19th anniversary of the September 11, 2001 terrorist attack on the United States soil. On that day there were 2,996 fatalities, including the 19 terrorists. The fatalities, of course, were primarily in New York City at the World Trade Center, where the twin towers collapsed, in Washington DC at the Pentagon, and in a field near Shanksville, Pennsylvania, where a plane went down that was initially targeted for the White House. In total, it was a series of four coordinated attacks. 243 firefighters and 72 law enforcement officers were killed, along with substantial long term health consequences for no known number of victims. Additionally, there were 25,000 injuries. It was a terrible day. It took a while for the United States to recover from that, both economically, and from a mental standpoint. It's very important that we remember it and we should never forget.

The following board members were present:

LANDFILL

The Towns' of Wilson and Cambria have historically operated a municipal landfill. Various garbage and waste was disposed on a 62.46 acre parcel located at 4828 Chester Road, within the boundaries of the Town of Wilson. This was also shared by the Town of Newfane and in the 1980's it was closed and the Town of Newfane bought out their agreement. Today, Cambria continues to have 18.5% ownership and shares expenses with the Town of Wilson for landscaping, monitoring, etc. The Town of Wilson came up with the idea that if the Town of Cambria takes care of mowing the grass for one year, they would do it for the next four years. A written agreement has been created and signed to ensure continuity as Supervisors and Highway Superintendents change.

BEAR RIDGE SOLAR PROJECT

A teleconference scheduled for next Thursday, September 17th.

NEW BUSINESS

SOLAR LAW UPDATE PROPOSAL

Tim Walck reported the following:

The Town Board is in receipt of a proposal from Wendel on changes that are anticipated in relation to the new Legislation, 94 C, and a new process that is going to lead to approving large-scale solar projects. It appears that the new process is going to stress the importance of the Town's Comprehensive Plan, and their local law regulating solar facilities. It's being recommended that communities have an up to date, comprehensive plan that addresses green energy solar and that municipalities have solar laws that reflect the Comprehensive Plan and the Town's vision. This proposal is to assist the Town with some revisions to the Comprehensive Plan to address those issues and related revisions to the Town's solar law. There are some other zoning codes that the Town may be interested in our input on at the same time. The proposal lays out a scope of work with several steps for working with the Town and the town committees that are formed on this matter, in addition to assisting the Town with SEQR and adoption when it gets to that point.

It will be done on time and expense basis, and a budget of \$13,000 for that work has been established. Drew Riley from Wendel will be on point for this work. He has been working with Town on the solar issues all along.

Upon a motion duly made by Councilman Roberts and seconded by Councilman Musall it was resolved to approve the proposal from Wendel, dated 9/9/2020, for updates to the Comprehensive Plan, Solar Law, and Zoning Ordinance as needed to address new technology and NYS Law on a time and expense basis not to exceed \$13,000.00. To further authorize the Supervisor and Deputy Supervisor to appoint a committee to work with Wendel on this project.

LOCKPORT/CAMBRIA WATERLINE CONTRACT

Supervisor Ellis indicated that there is a water line running along Campbell Blvd. and Junction Rd., which is on the east side, down the Lockport side of the road. That has been a joint line since the beginning and the Town of Cambria gets water from that for the people that live on the west side. There are approximately 30 taps into it with possibly more in the future. The Town of Lockport has put in a 10 inch line to replace the eight inch line and the Town of Cambria has agreed to pay a share of the cost of that project. A new contract has been drawn up between the Town of Lockport and the Town of Cambria. Essentially, it gives Cambria 50% ownership of the line and will help as we see growth along that side of the road.

Upon a motion duly made by Councilman Foe and seconded by Councilman Roberts it was resolved to approve contract between the Town of Lockport and the Town of Cambria dated 9/10/2020, and authorize the Supervisor to sign.

NOISE POLLUTION CONTROL LAW

Supervisor Ellis discussed the Noise Pollution law and indicated that it is one the Board has talked about on and off for the last three years or so. Noise is not an area that is a major problem in the Town, but when it comes up, it does need to have some authority behind it. This would be Local Law Number 1-2020 Noise Pollution Control Law of the Town of Cambria. It is replacing Local Law Number 1 of 1980. The Town has included an exemption for various noises associated with best approved agricultural practices. This comes in with harvesting primarily, or tractors having to work through the night to prepare ground in the spring, things of that nature.

Upon a motion duly made by Councilman Roberts and seconded by Councilman Musall it was resolved to approve Public Hearing to be scheduled on Thursday, October 8, 2020, at 7:00 PM, for Local Law Number 1-2020 Noise Pollution Control Law of the Town of Cambria.

One has been a longtime employee here for 20 years and the other one has also worked in the public school system along with working here at the Town. They both want to start withdrawing their retirement funds, but also, continue to work with the Town for a while. There must be a motion from the Town Board which, on the one hand accepts their resignation and then reappoints them to the position a day or two later.
